

Overview

Morbidity & Mortality is a Vision CME Regularly Scheduled Series, featuring cases identified through Vision Radiology's Quality Assurance/Control program as providing a valuable opportunity for discussion of challenging findings and difficult interpretations. The goal of this series is to learn in a safe environment from the experiences of our colleagues in order to improve our competence and performance, increase our knowledge, and improve patient outcomes. Emphasis will be placed on teaching points that are directly applicable to daily practice and that advance the ABMS core competencies (patient care, medical knowledge, interpersonal and communication skills, professionalism, systems-based practice, and practice-based learning).

A list of the cases to be discussed will be made available prior to each session.

After each session has concluded, please submit the evaluation **within 1 week**. You must submit the completed evaluation in order to claim CME credit.

Session Objectives

At the conclusion of each session, participants should have an increased awareness of challenging and unexpected diagnoses in emergency radiology imaging.

Presenters are announced prior to each conference

Faculty/Planners

Nepenthe Fong, MD

Raymond Hsu, MD

Stefan Hura, MD

Sebastian McWilliams, MBBCh

Grace Tye, MD

Session duration: 1 hour

Accreditation Statement

Vision Professional Services, LLC is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Vision Professional Services, LLC designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Disclosure of Relevant Financial Relationships

None of the presenters, planners, or faculty for this educational activity have relevant financial relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Financial relationships are

relevant if the following three conditions are met for the prospective person who will control the content of the education:

- A financial relationship, in any amount, exists between the person in control of content and an ineligible company.
- The financial relationship existed during the past 24 months.
- The content of the education is related to the products of an ineligible company with whom the person has a financial relationship.
