

## **Overview**

Key Topics & Pitfalls in Neuroradiology is a Vision CME Regularly Scheduled Series, featuring cases and topics of particular clinical importance in neuroradiology, with frequent focus on common pitfalls in interpretation of radiology studies. The goal of this series is to learn from our colleagues' presentation and discussion of challenging and/or interesting cases in order to improve our competence and performance, increase our knowledge, and improve patient outcomes. Emphasis will be placed on teaching points that are directly applicable to daily practice, that improve patient safety and that advance the ABMS core competencies (patient care, medical knowledge, interpersonal and communication skills, professionalism, systems-based practice, and practice-based learning).

Each session will focus on uniquely interesting cases encountered in neuroradiology showcasing challenging or unusual manifestations of disease.

After each session has concluded, please submit the evaluation **within 1 week**. You must submit the completed evaluation in order to claim CME credit.

## **Session Objectives**

At the conclusion of this session, participants should have an improved awareness of the radiologic appearance of several different disease entities and their etiologies, pathophysiology, and, where relevant, management.

## **Presenters are announced prior to each conference**

### **Faculty/Planners**

Philip Lobert, MD

Stefan Hura, MD

Grace Tye, MD

Nepenthe Fong, MD

Raymond Hsu, MD

**Session duration:** 1 hour

## **Accreditation Statement**

Vision CME is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Vision CME designates this educational activity for a maximum of 1.0 AMA PRA Category 1 Credits. Physicians should only claim credit commensurate with the extent of their participation in the activity and the activity must be attended live to be eligible for credit.

## **Disclosure of Relevant Financial Relationships**

None of the presenters, planners, or faculty for this educational activity have relevant financial relationship(s) to disclose with ineligible companies whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients. Financial relationships are

relevant if the following three conditions are met for the prospective person who will control the content of the education:

- A financial relationship, in any amount, exists between the person in control of content and an ineligible company.
- The financial relationship existed during the past 24 months.
- The content of the education is related to the products of an ineligible company with whom the person has a financial relationship.
